17 of the site for which the permit is sought and on which the work
18 is to be performed.

19 (2) Location of any buildings, structures, utilities,
20 sewers, water and storm drains on the site where the work is to
21 be performed.

22 (3) Relationship of site to surrounding land:
23 existing topography, drainage and structures.

24 (4) Elevations and/or contours, dimensions,
25 location and extent of all work proposed to be done, and the
26 existing elevations and/or contours of the land.

27 (5) A certification of the quantity of excavation
28 and fill involved; and, area affected by the land disturbing
29 activity in square feet, that being the total site area less that
30 area to remain undisturbed and certified as having effective
31 erosion resistant ground cover.

32 (6) Detailed plans of all drainage provisions,

1 retaining walls, cribbing, vegetative practices, erosion and
2 sediment control measures, location of approved fences around
3 sediment basins, steep excavations or ponding areas and other
4 protective devices to be constructed in connection with, or as
5 a part of, the proposed work, together with a map showing the
6 drainage area of land tributary to the site, and estimated cubic
7 foot per second runoff of the area served by any drain.

8 (7) A timing schedule and sequence indicating the
9 anticipated starting and completion dates of the development
10 sequence, stripping and/or clearing, rough grading and construction,
11 final grading and vegetative establishment and maintenance and
12 the time of exposure of each area prior to the completion of
13 effective erosion and sediment control measures.

14 (8) A clear and definite delineation of the limits
15 of work (i.e. showing areas to remain undisturbed and showing
16 areas to be disturbed).

17 (9) Other plans, drawings or materials and
18 information as required by the Department or the District.

19 (10) Special consideration shall be given to
20 preservation of wetlands. As a minimum the following shall
21 be adhered to:

23 shall be preserved or installed and maintained in accordance with
24 the Standards and Specifications mentioned above in order to
25 insure wetland protection:

26 (B) Grading within seventy-five (75) feet of
27 wetlands shall be prohibited unless instituted to install protection
28 as addressed above: Grading should be kept to a minimum to insure
29 the integrity of the natural habitat of the area:

30 (C) Fill material shall be kept out of the
31 wetlands unless permission is granted by a special permit from
32 the Board of Appeals:

1 (D) Storm drainage; because storm drains
2 tend to increase the velocity of water runoff and carry
3 pollutants directly to fragile wetlands; discharge velocity
4 shall be reduced to four (4) feet per second in storm drains
5 that discharge directly into wetlands (private or State):

6 (A) VEGETATIVE TIDAL BANK STABILIZATION IN
7 ACCORDANCE WITH THE STANDARDS AND SPECIFICATIONS FOR SOIL EROSION
8 AND SEDIMENT CONTROL IN DEVELOPING AREAS AS APPROVED BY THE WATER
9 RESOURCES ADMINISTRATION.

10 (B) BUFFER AREAS OF SEVENTY-FIVE (75) FEET
11 SHALL BE PRESERVED OR INSTALLED IN ADDITION TO THE VEGETATIVE TIDAL
12 BANK STABILIZATION.

13 (C) GRADING OF WETLANDS SHALL BE PROHIBITED
14 UNLESS INSTITUTED TO INSTALL PROTECTION AS ADDRESSED ABOVE.

15 (D) FILL MATERIAL SHALL BE KEPT OUT OF THE
16 WETLANDS UNLESS PERMISSION IS GRANTED BY A SPECIAL PERMIT FROM THE
17 BOARD OF APPEALS.

18 (E) DIRECT STORM DRAINAGE DISCHARGE INTO
19 WETLANDS SHALL BE REDUCED TO FOUR (4) FEET PER SECOND (PRIVATE
20 OR STATE).

21 (c) The Department may waive the requirement for scale
22 plans or drawings if it finds that the information on the
23 application is sufficient to show that the work will conform to
24 the requirements of this Article, provided that no such waiver
25 shall be construed as waiving the requirements of the District.

26 (d) A separate permit shall be required for each
27 separate noncontiguous site.

28 (e) No permit shall be transferable without the
29 written consent of the Department.

30 (f) No permit shall be issued for land disturbance
31 which is for building or development not permitted by existing
32 zoning, special exceptions and variances applicable to the land.

1 Section 10-4. Permits - Referral of Plans.

2 Prior to the issuance of a permit, a copy of the plan
3 shall be referred to the District for review and approval of the
4 proposed erosion and sediment control measures, and shall be
5 referred to the Department of Natural Resources where required by
6 State law. The Department of Natural Resources and the District
7 shall, within thirty (30) days, notify the Department of their
8 recommendations and/or approval so that the applicant may be
9 notified in a timely manner.

10 Section 10-5. Permits - Modification of Plans.

11 (a) Major modifications of the approved plans shall be
12 submitted to the Department and reprocessed in the same manner as
13 the original plan and referred in accordance with Section 10-4
14 of this Article where:

15 (1) Inspection has revealed the inadequacy of the
16 plan to accomplish the erosion and sediment objectives of the
17 plan, and appropriate modifications to correct the deficiency of
18 the plan are approved by the District.

19 (2) The person responsible for carrying out the
20 approved plan finds that because of changed circumstances or for
21 other reasons the approved plan cannot be effectively carried out
22 and proposes revisions to the plan that are consistent with the
23 requirements of this ordinance and rules and regulations
24 promulgated pursuant thereto and the District and Department approve
25 the proposed revisions.

26 (3) The Department may, in emergency situations
27 and at its discretion, order repairs or modifications in order to
28 protect stream channels, other properties or the general public
29 from damage, to remain in effect until such modifications or
30 revisions to the plan shall have been approved and implemented.

31 (b) Field modifications of a minor nature where such
32 changes do not render the plan ineffective may be authorized by

1 the Department provided that written authorization is given to the
2 person performing work pursuant to this Article with a copy
3 forwarded in a timely manner to the District.

4 Section 10-6. Fees.

5 The Department shall, by regulation, prior to the issuance
6 of any permit, establish permit and inspection fees and set
7 nonrefundable fee schedules for filing, additional submissions
8 and permit extensions in an amount not to exceed the reasonable
9 cost of administering and enforcing this Article. Such fees may
10 be based upon reasonable classifications of land disturbing
11 activities.

12 Section 10-7. Fees - Conditions Upon Issuance.

13 In granting any permit, the Director may attach such
14 conditions thereto as he may deem reasonably necessary to
15 prevent sedimentation or pollution to public or private property
16 or any sewer, storm drain or watercourse; to prevent the operation
17 from being conducted in a manner hazardous to life or property,
18 or in a manner likely to create a nuisance or source of pollution.
19 Such conditions may include, but are not limited to, the erection
20 or installation of walls, drains, dams and structures, plantings,
21 erosion and sediment control measures or devices, furnishing
22 necessary easements and a specified method of performing the work
23 which shall be identified on the sediment control plan submitted
24 for approval. No permit shall be issued until a sediment control
25 plan is approved by the District, and the owner certifies that
26 all land disturbing activities shall be performed pursuant to the
27 sediment control plan and modifications incorporated pursuant to
28 Section 10-5 herein. The approved plan shall be a condition of
29 and part of the permit. No person shall violate any such
30 conditions so imposed.

31 Section 10-8. Fees - Expiration; Extension.

32 Every permit issued hereunder shall expire at the end of

1 the period of time set out in the permit. However, no permit
2 period shall exceed twelve (12) months. The permittee shall fully
3 perform and complete all of the work required to be done within
4 one (1) year after the date of issuance unless specified otherwise
5 by the Department for good cause shown. If the permittee shall
6 be unable to complete the work within the specified time, he shall,
7 within thirty (30) days prior to expiration of the permit, present
8 in writing to the Department a request for an extension of time
9 not to exceed six (6) months, setting forth therein the reasons
10 for the requested extension. If, in the discretion of the
11 Director, such an extension is warranted, he may grant additional
12 time for the completion of the work for an additional fee that
13 shall be one-twelfth (1/12) of the original fee for each month
14 or part of month that the extension is granted. Where the
15 Director determines that the extension of time will require a
16 substantial modification of the grading, erosion and sediment
17 control plan, any extension of a permit shall be subject to
18 approval of a revised sediment control plan by the District.
19 Section 10-9. Fees - Revocation or Suspension.

20 (a) Any permit issued under this Article may be
21 revoked or suspended by the Director, after notice, for:

22 (1) Violation of the plan or of any other
23 condition of the permit.

24 (2) Violation of any provision of this ordinance
25 or any other applicable law, ordinance, rule or regulation relating
26 to the work.

27 (3) Existence of any condition or the doing of
28 any act constituting or creating a nuisance, hazard or
29 endangering human life or the property of others.

30 (b) In addition to the authority set forth in Subsection
31 (a), the Director and/or inspector may post a site with an order
32 directing the permittee to cease all land disturbing activity

1 being performed under permits issued under this ordinance when
2 such activity does not conform to the specifications, including
3 modifications thereof, of an approved plan or other conditions
4 of the permit issued hereunder, provided that:

5 (1) Written notice to comply will be furnished
6 within seven (7) days to the permittees by regular mail and
7 addressed to the address of the permittee as stated on the
8 application for a permit.

9 (2) The notice includes the nature of the
10 corrective measures required and the time within which corrections
11 shall be made.

12 (c) Nothing contained in this Section shall be
13 interpreted as restricting the Department from proceeding directly
14 with a cease and desist order or with alternative enforcement
15 procedures as set forth in Section 10-20.
16 Section 10-10. Performance Bond.

17 (a) The Director shall, before issuing a permit, require
18 a cash or corporate bond in the form and manner prescribed by the
19 County Attorney conditioned upon the faithful performance of the
20 conditions in the permit and soil erosion and sediment control
21 measures specified in the permit within the time specified by the
22 Director. Collateral required by this Section shall be Three
23 Hundred Dollars (\$300) plus Two Cents (2¢) THREE CENTS (3¢) per
24 square foot of the area included in the land disturbing activity,
25 plus such amounts as deemed necessary by the Director to secure
26 the cost of improvements required in approved plans. A corporate
27 bond shall be maintained and renewed annually and shall be
28 executed by a surety or guarantee company qualified to transact
29 business in the State of Maryland. A cash bond shall be deposited
30 with the Treasurer of Harford County who shall give his receipt
31 therefor, reciting that the cash has been deposited in compliance
32 with and subject to the provisions of this Section. The bond shall

1 obligate the principal, his executors, administrators, successors
2 and assigns, jointly and severally with the surety and shall inure
3 to the benefit of the County, its officers, employees and to any
4 person aggrieved by the principal's failure to comply with the
5 conditions thereof. The principal and the surety shall, under the
6 bond, continue to be firmly bound under a continuing obligation
7 for the payment of all necessary costs and expenses or
8 liabilities which may be incurred or expended by the Department
9 to meet the minimum requirements of this Article.

10 (b) Whenever the Department shall find that a default
11 has occurred in the performance of any term or condition of the
12 permit or bond, written notice thereof shall be given to the
13 principal and to the surety of the bond. Such notice shall state
14 the work to be done, the estimated cost thereof and the period
15 of time deemed by the Department to be reasonably necessary for
16 the completion of such work.

17 (c) If a cash bond has been posted, notice of default
18 as provided by the preceding paragraphs shall be given to the
19 principal, and if compliance is not had within the time specified,
20 the Department shall proceed without delay and without further
21 notice or proceedings whatsoever to use the cash deposited, or any
22 portion of such deposit, to cause the required work to be done by
23 contract or otherwise in the discretion of the Director.

24 (d) In the event of any default in the performance of
25 any term or condition of the permit or bond, the County, the
26 surety or any person employed or engaged on his behalf shall have
27 the right to go upon the site to complete the required work
28 necessary to control erosion and sedimentation or make it safe.
29 In the event the Department undertakes the required work or makes
30 the site safe with the funds from the forfeited cash or corporate
31 bond, such funds shall be used to pay the cost of contracting,
32 including engineering and administration, for necessary restoration

1 of the site to control erosion and sedimentation within the
2 requirements of the plan, permit, bond or this Article. If
3 the cost of the work necessary to control erosion and sedimentation
4 or to make it safe exceeds the amount of the cash or corporate
5 bond, the permittee shall continue to be firmly bound under a
6 continuing obligation for payment of all excess costs and expenses
7 incurred by the County. The cost and expenses shall be a lien
8 upon all property and all rights to property, real or personal,
9 of any person liable to pay the same from and after the time said
10 cost is due and payable. The cost shall be listed on the tax
11 bill and shall be collected in the manner of ordinary taxes.

12 (e) No person shall interfere with or obstruct the
13 ingress or egress to or from any such site or premises by an
14 authorized representative or agent of any surety or of the
15 Department engaged in completing the work required to be performed
16 under the permit or in complying with the terms or conditions
17 thereof.

18 (f) A corporate bond shall remain in full force and
19 effect until a completion certificate is issued pursuant to
20 Section 10-15. A cash bond shall be returned to the depositor
21 or to his successors or assigns upon issuance of a completion
22 certificate for the work in accordance with Section 10-15,
23 except any portion thereof that may have been used. Failure to
24 maintain the above required surety shall automatically operate
25 as a temporary revocation of any and all permits issued by Harford
26 County to the permittee, his predecessors or successors and
27 assigns in interest.

28 Section 10-11. Liability Insurance.

29 If, in the opinion of the Director, the nature of the
30 work is such that it may create a hazard to human life or endanger
31 adjoining property or property at a higher or lower elevation, or
32 any street or street improvement, or any other public property,

1 then the Director may, before issuing the permit, require that
2 the applicant for a permit file a certificate of insurance
3 showing that he is insured against claims for damages for personal
4 injury and property damage in an amount not less than Twenty-five
5 Thousand Dollars (\$25,000), including damage to the County by
6 deposit or washing of material onto County streets or other
7 public improvements, which may arise from or out of the
8 performance of the work, whether such performance be by himself,
9 his subcontractor or any person directly or indirectly employed
10 by him, and the amount of such insurance shall be prescribed by
11 the Director in accordance with the nature of the risks involved.
12 Such insurance shall be written by a company licensed to do
13 business in the State and approved by the County. Neither
14 issuance of a permit nor compliance with the provisions hereto
15 or any condition imposed by the Department shall relieve any
16 person from any responsibility for damage to persons or property
17 otherwise imposed by law, nor impose any liability upon the County
18 for damages to persons or property. Failure to maintain the
19 required liability insurance shall automatically operate as a
20 temporary revocation of any and all permits issued by Harford
21 County to the permittee, his predecessors or successors and
22 assigns in interest.

23 Section 10-12. Maintenance Bond.

24 The Director may, where he deems it necessary to protect
25 the property or health, safety or general welfare of other persons
26 or the public in general, require the permittee to post
27 a maintenance bond, IN THE FORM AND MANNER PRESCRIBED BY THE
28 COUNTY ATTORNEY, for a period of twelve (12) months following
29 the completion of the land disturbing activities for which the
30 permit was issued. The bond shall cover latent defects in or
31 labor and material required to maintain all grade surfaces, walls,
32 drains, dams, structures, slopes, vegetation and sediment control

1 measures and other protective devices and damages resulting from
2 construction equipment and vehicles doing work in that portion
3 of the area covered by the terms of the permit. The amount of
4 the bond shall be equal to or greater than ten percent (10%) of
5 the construction cost as determined by the Director.

6 Section 10-13. Inspection.

7 (a) No land disturbing activity shall proceed until
8 approved by the Department and the Soil Conservation District.
9 All work shall be performed in accordance with a schedule shown
10 on the approved plan or a revised schedule approved by the
11 Department and Soil Conservation District.

12 (b) After commencing initial land disturbing activity,
13 the Department shall inspect at the following stages:

14 (1) Upon completion of stripping, clearing and the
15 stockpiling of soil, but prior to related off-site land disturbing
16 activities.

17 (2) During rough grading, including hauling of
18 imported or wasted materials.

19 (3) Upon completion of rough grading, but prior to
20 placing topsoil, permanent drainage systems, ground covers or
21 other permanent site development improvements identified on the
22 approved plan.

23 (4) Upon completion of final grading, including
24 established ground covers and planting, and installation of all
25 vegetative measures and all other work in accordance with the
26 approved plan.

27 (c) The permittee shall notify the Department forty-eight
28 (48) hours before commencing any land disturbing activity. Upon
29 receiving such notice, the Department shall inspect the work and
30 notify the permittee of its approval or in what respect there
31 has been a failure to comply with the requirements of this Article.
32 Any portion of the work which does not comply shall be promptly

1 corrected by the permittee. The Department may make additional
2 inspections as it deems appropriate, and shall have the right
3 to waive inspections, except for the final inspection as provided
4 in Section 10-15.

5 (d) The Department shall maintain a permanent file of its
6 inspections.

7 (e) When sediment control plans for land disturbing
8 activities include the use of water retention structures such as
9 ponds, catch basins, related facilities and when such plans show
10 by affidavit that they have been prepared by a licensed
11 professional engineer or land surveyor and that said licensed
12 professional engineer or land surveyor will supervise the
13 construction of such facilities in accordance with the provisions
14 of such plans and regulations adopted in accordance with this
15 Article, the Director may waive the inspections required by this
16 Section. Before the issuance of a completion certificate in
17 accordance with Section 10-15, said licensed professional engineer
18 or land surveyor shall certify to the Department that the
19 facilities included on the approved plan have been constructed in
20 accordance with said plan or modifications made thereto and
21 approved by the Department and District.

22 Section 10-14. Maintenance of Structures, Measures and Devices.

23 The permittee or the owner of any property on which work
24 has been done pursuant to a permit granted hereunder, or any other
25 person or agent in control of such property, shall maintain in
26 good condition and promptly repair or restore all grade surfaces,
27 walls, drains, dams and structures, plantings, vegetation, erosion
28 and sediment control measures and other protective devices. Such
29 repair or restoration and maintenance shall be in accordance with
30 the approved plans, specifications and permits as required by
31 this Article until permanent measures are accepted by the
32 Department.

33 Section 10-15. Completion.

1 Immediately upon completion of the project, the permittee
2 shall notify the Department. The Department shall make a final
3 inspection and shall prepare a final inspection report, a copy
4 of which shall be submitted to the District.

5 If, upon final inspection of any work, it is found by the
6 Department that the work subject to inspection has been satisfac-
7 torily completed in accordance with the requirements of this
8 Article, the permit, conditions, plans, drawings and specifications,
9 as the case may be, and the required reports have been submitted,
10 a completion certificate covering such work shall be issued to the
11 owner by the Department. The Performance Bond will be returned
12 at this time.

13 Section 10-16. Protection to Adjacent Property During Excavation.

14 No person shall excavate on land sufficiently close to
15 the property line of another to endanger any adjoining property,
16 public street, sidewalk, alley or other public or private property
17 without supporting and protecting such public street, sidewalk,
18 alley or other property from settling, cracking or other damage
19 which might result from excavation. If, in the opinion of the
20 Director, the nature of the excavation is such as to create a
21 hazard to life or property unless adequately safeguarded, the
22 applicant shall construct such walls, fences, guard rails or other
23 structures to safeguard the public street, sidewalk, alley or
24 other property and persons using such, as the Director may
25 require.

26 Section 10-17. Deposits of Soil, Material or Liquid Prohibited.

27 (a) No person shall engage in any land disturbing
28 activity or by any action cause or permit any soil, earth, sand,
29 gravel, rock, stone or other material or liquid to be deposited
30 upon or to roll, flow or wash upon or over the premises of another
31 in a manner to cause damage to such premises without the express
32 consent of the owner of such premises affected; no person shall

1 engage in any land disturbing activity or by any action cause or
2 permit any soil, earth, sand, gravel, rock, stone or other
3 material or liquid to be deposited or to roll, flow or wash upon
4 or over any public street, street improvement, road, sewer,
5 storm drain, water course or right-of-way, or any public or
6 private property in a manner to damage or to interfere with the
7 use of such property.

8 (b) No person shall, when hauling soil, earth, sand,
9 gravel, rock, stone or other material over any public street, road,
10 alley or public property allow such materials to blow or spill
11 over and upon such street, road, alley or public property or
12 adjacent private property.

13 (c) If any soil, earth, sand, gravel, rock, stone or
14 other material or liquid is caused to be deposited upon or to roll,
15 flow or wash upon any public or private property in violation of
16 Subsections (a) and (b) above, the person responsible shall be
17 notified and shall cause IT to be removed from such property within
18 thirty-six (36) hours. In the event of an immediate danger to
19 the public health or safety, notice shall be given by the most
20 expeditious means and the material or liquid shall be removed
21 immediately. In the event it is not so removed, the Department
22 shall cause such removal and the cost of such removal by the
23 Department shall be paid to the County by the person who failed to
24 so remove the material and shall be a debt due the County. The
25 cost of such removal shall be a lien upon all property and all
26 rights to property, real or personal, of any person liable to pay
27 the same from and after the time said cost is due and payable.
28 The cost of such removal shall be listed on the tax bill and shall
29 be collected in the manner of said taxes, provided, however, that
30 nothing contained in this Section shall be interpreted as
31 prohibiting the Department from proceeding directly with
32 alternative enforcement procedures set forth in Section 10-20

1 or declaring a forfeiture of the posted security to the extent
2 of the cost insured by the County. Failure of the surety or
3 permittee from honoring the demands of the County for the costs
4 incurred shall automatically operate as a termination of all
5 permits issued by Harford County to the permittee, his
6 predecessors, successors and assigns in interest.

7 Section 10-18. Rules and Regulations.

8 (a) The Director may establish rules and regulations
9 for the administration of the provisions of this Article in
10 accordance with the established procedures of the Executive
11 Branch, with opportunity for full participation from the Harford
12 Soil Conservation District and shall obtain the recommendations
13 from the District prior to a public hearing being held. Such
14 rules and regulations and amendments thereto shall not conflict
15 with nor waive any provisions of this Article nor be less
16 restrictive than its provisions.

17 (b) Regulations promulgated pursuant to this Article
18 shall include, but not be limited to, the following provisions:

- 19 (1) Maximum duration of exposure.
20 (2) Critical slope of protection.
21 (3) On-site drainage controls.
22 (4) Protection of specimen trees.

23 Section 10-19. Exemptions.

24 The provisions of Section 10-11 and 10-12 and the
25 criminal provisions of Section 10-20 shall not apply to municipal
26 corporations, County or State-agencies within the State or any
27 combination thereof.

28 THE PROVISIONS OF SECTION 10-10, 10-11, 10-12 AND THE
29 CRIMINAL PROVISIONS OF SECTION 10-20 SHALL NOT APPLY TO MUNICIPAL
30 CORPORATIONS, COUNTY OR STATE AGENCIES WITHIN THE STATE OR ANY
31 PUBLIC SERVICE COMPANY AS DEFINED IN ARTICLE 78, SECTION 2 (O) OF
32 THE ANNOTATED CODE OF MARYLAND, 1976 SUPPLEMENT, OR ANY
33 COMBINATION THEREOF.

1 Section 10-20. Penalties.

2 Any person convicted of violating the provisions of this
3 Article shall be guilty of a misdemeanor, and upon conviction
4 thereof, shall be subject to a fine of not more than One Thousand
5 Dollars (\$1,000) for each and every violation. Each day that the
6 violation continues shall be a separate offense. In addition
7 thereto, the County may institute injunctive, mandamus or any
8 other appropriate action or proceedings at law or equity for the
9 enforcement of this Article or to correct violations of this
10 Article, and any court of competent jurisdiction shall have the
11 right to issue restraining orders, temporary or permanent
12 injunctions or mandamus or other appropriate forms of remedy
13 or relief.

14 Section 2. *And Be It Further Enacted*, that if any Section, clause,
15 phrase, word, provision or particular application of this Act is
16 for any reason held invalid or unconstitutional by any court of
17 competent jurisdiction, such Section, clause, phrase, word,
18 provision or particular application shall be deemed a separate,
19 distinct and independent provision or application and such holding
20 shall not affect the validity of the remaining provision or
21 subsequent application thereof.

22 Section 3. *And Be It Further Enacted*, that this Act shall take
23 effect sixty (60) days from the date it becomes law.

Dear Mr. Anderson,

The Supervisors of Elections request a supplemental appropriation of \$14,000 to buy 11 voting machines (\$850 each, used, F.O.B. from factory), and additional postage due to the fact it is going to cost twice the regular postage because of the size of the absentee ballot.

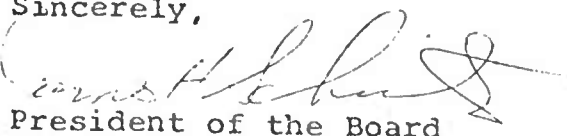

At the close of the books before the Primary we had 50,027 registered voters. Between the time the books reopened June 1, 1976 and October 4, 1976 we registered 8,383. There was absolutely no way of knowing we would register this number of persons. Enclosed is a copy of Article 33, Section 16-1 (b), effective July 1, 1974.

We expect to have about 2,500 absentee applications and possibly more, and a possibility we may have to have new envelopes printed for them.

Thank you for your prompt attention to this request.

I remain,

Sincerely,

President of the Board

26 loading or unloading passengers, merchandise or materials or
27 when used by the owner or operator actively engaged in work on
28 the premises of the residence, apartment house, church, school,
29 hospital or playground. At authorized terminal stands of bus
30 routes operating under a permit from the State Public Service
31 Commission, stops may be made for a sufficient period of time,
32 not to exceed thirty (30) minutes, for the purpose of maintaining

1 schedules. This Section shall not apply to a vehicle
2 involuntarily parked because of mechanical failure or other
3 emergency, provided such vehicle is removed within a reasonable
4 period of time.

5 Section 23-22. Repairing or Leaving Vehicles on Streets, Highways
6 or Roads for Repairs.

7 (a) It shall be unlawful for any person to perform
8 service or repairs on a vehicle parked on a public street, highway
9 or road within the County, except for emergency service or
10 repairs, or to store or park on any public street, highway or
11 road, any motor vehicle left in the custody of the management of
12 the garage, repair shop or service facility, except for the time
13 necessary to permit the removal of another car from the garage,
14 repair shop or service facility.

15 ARTICLE 4. INTERFERENCE WITH EMERGENCY EQUIPMENT.

16 Section 23-23. Definitions.

17 (a) For the purposes of this Article, terms hereinafter
18 set forth shall be defined as follows:

19 (1) A fire lane is defined as a lane required to be
20 permanently open for the ingress or egress of fire and other
21 emergency vehicles only, in order that fires and other disasters
22 may be prevented or controlled and exitways are kept unobstructed
23 for life safety.

24 (2) An emergency vehicle is defined as a vehicle
25 so designated or authorized by the administrator of the State
26 Motor Vehicle Administration.

27 (3) Safe and expeditious manner means the use of
28 any safe method by the proper authorities which is calculated to
29 remove the obstruction in the shortest period of time, including,
30 but not limited to, the use by the proper authorities of wrecking
31 equipment, tools, tow trucks and explosives.

32 (4) Fire company means any volunteer or compensated

1 fire company serving Harford County including those operated by
2 the Federal Government or from out of State..

3 (5) Fire Marshall means the State Fire Marshall or
4 any duly appointed County Fire Marshall.

5 Section 23-24. Establishment of Fire Lanes; Obstruction; Removal;
6 Warning Signs; Cost.

7 (a) The Fire Marshall or the Fire Chief shall study the
8 access to all buildings, especially those which are in a congested
9 area in the County and are used by the public and shall determine
10 whether such buildings require the designation and marking
11 of fire lanes. If the Fire Marshall in coordination with the
12 Fire Chief of the fire company serving the area involved shall
13 find any private entrance or exit, sidewalk, fire hydrant or
14 vehicular driveway or interior private driveway or sidewalk,
15 existing or proposed, is obstructed or is likely to be obstructed
16 by vehicles, debris, snow, construction material or other matter
17 likely to interfere with the ingress or egress of emergency
18 vehicles, they shall order that the obstruction be removed at
19 once and that such areas be kept clear of obstruction at all
20 times. In order to facilitate the keeping of said ingress and
21 egress areas free from obstruction, the Fire Marshall or Fire
22 Chief shall erect the proper warning signs and shall designate
23 placement thereof in cooperation with the Department of Public
24 Works and he shall designate proper fire lanes which shall be
25 clearly marked with the words, "Fire Lane - Do Not Block", and
26 such curb, road, sidewalk or driveway or other access shall also
27 have painted upon it, in a highly visible color, lines that will
28 delineate the areas to be kept clear of any obstruction. Where
29 such signs or markings must be erected or painted on privately
30 owned property, the cost of the signs or marking or painting shall
31 be borne by the owner or owners of the property.

32 Section 23-25. Authorization for Removal; Manner of Removal;
33 Charges.

1 (a) No person shall park or allow to be parked any
2 vehicle, of which he is the owner, in a manner that interferes
3 with or obstructs a clearly marked fire lane or fire hydrant area.
4 In addition, no person shall place or allow to be placed any
5 material, debris or other object, of which he is the owner or has
6 possession of, in a manner that interferes with or obstructs a
7 clearly marked fire lane or fire hydrant area.

8 (b) Any law enforcement officer, or member of a fire
9 company, is hereby authorized whenever necessary to take
10 possession of, remove, tow away, impound or otherwise remove any
11 debris, material, vehicle or other object which interferes with
12 or obstructs previously established and marked fire lanes for the
13 access or operation of any fire company equipment or other
14 emergency vehicles or equipment.

15 (c) Any law enforcement agency, fire company or other
16 County agency which has cause to remove an obstruction from a
17 fire lane during a fire or other emergency is authorized to do so
18 in any manner that is both safe and expeditious as defined by
19 this Article. Any charges imposed by the removing agent, public
20 or private, shall be borne by the owner of the obstruction.
21 Section 23-26. Parking Regulations; Violations; Penalty.

22 (a) In all cases involving parking violations in the
23 way of fire lanes established and marked pursuant to this Article,
24 a law enforcement officer who discovers a vehicle illegally parked
25 shall, if the operator is absent, attach a summons to the vehicle
26 in a conspicuous place, or if the operator is present, deliver
27 such summons to him. A copy of the summons shall be retained by
28 the officer and shall bear certification under penalty of perjury
29 by the officer attesting to the truth of the matter therein set
30 forth. The recipient of such a summons may waive a hearing before
31 the Court at least five (5) days prior to the date of hearing
32 set out in the summons, and pay the designated fine to the

1 County Treasurer. If the person so summoned desires a hearing, he
2 shall notify, in writing, the Clerk of the Court of such desire at
3 least five (5) days prior to the date of the hearing as set forth
4 in the summons. At the time that such notice of a desire for a
5 hearing is given, the person summoned shall also notify the Clerk
6 of the Court that he desires the presence of the officer who
7 issued the summons at the time of the hearing. In the event that
8 the person so summoned does not notify the Clerk that he desires
9 the presence of the officer at the time of the hearing as afore-
10 said, it shall not be necessary that the officer who issued the
11 summons appear, and the copy of the summons bearing the certifica-
12 tion by the officer shall be prima facie evidence of the matters
13 therein set forth. No summons shall be issued setting a trial
14 date less than fifteen (15) days from the date of offense.

15 (b) Whenever an unattended motor vehicle may be found
16 in violation of the provisions of this Article, the registered
17 owner, as disclosed by the records of the State Motor Vehicle
18 Administration, shall be held responsible for the violation.

19 (c) Any person charged with the violation of this
20 Article may give his written promise to appear in Court by
21 signing at least one (1) copy of the citation to the person, and
22 thereupon the officer shall not take the person into physical
23 custody for the violation.

24 (d) Any person who shall violate his written promise
25 to appear in Court to answer to a charge of a violation of any of
26 the provisions of this Article shall be guilty of a misdemeanor,
27 regardless of the disposition of the charge upon which he was
28 originally charged.

29 Section 23-27. Liability.

30 (a) Harford County, Maryland, or any fire company serving
31 Harford County, or any law enforcement officer or agency shall not
32 be held liable for any damage to property that may result from the

1 proper application and enforcement of this Article.

2 Section 23-28. Penalty.

3 (a) Any person violating any of the provisions of this
4 Article shall be guilty of a misdemeanor, and, upon conviction
5 thereof, shall be fined not less than Ten Dollars (\$10) nor more
6 than Five Hundred Dollars (\$500), or imprisoned not less than
7 ten (10) days nor more than three (3) months, or both fined and
8 imprisoned.

9 (b) Each and every day during which a violation of this
10 Article continues shall be deemed a separate offense.

11 (c) The fine for a parking violation for any person
12 who desires to waive his right to a court hearing and pay the fine
13 shall be Ten Dollars (\$10) for the first offense, Twenty-five
14 Dollars (\$25) for the second offense, and Fifty Dollars (\$50) for
15 every offense thereafter.

16 Section 2. *And Be It Further Enacted*, that if any provision or
17 provisions of this Act, or the particular application thereof,
18 shall be held to be invalid, the remaining provisions and their
19 application shall not be affected thereby. Should any provision
20 hereof be inconsistent with any rule, regulation or policy of
21 any other agency having jurisdiction, such provision shall be
22 invalid, but the remaining provisions and their application shall
23 not be affected thereby.

6 County Code (1975), all to read as follows:

7 CHAPTER 2. ADMINISTRATION.

8 ARTICLE 2. LEGISLATIVE BRANCH.

9 Section 2-30.1. People's Counsel.

10 (a) With the approval of a majority of the Council, a
11 People's Counsel, and such assistants as may be necessary, shall
12 be employed by the Council Attorney to represent the interests of
13 the public in all matters and proceedings preliminary to arising
14 out of or affecting the zoning classification or reclassification
15 of land in Harford County. Persons employed as People's Counsel
16 shall serve as People's Counsel until such time as they resign or
17 have been removed pursuant to the provisions stated herein. Except
18 as provided for below, the People's Counsel shall, at all times,
19 be free to make an independent determination as to the matters
20 and proceedings in which he shall participate and the conduct of
21 the affairs of his position in performing his duties and functions.

22 (b) The People's Counsel shall have been a member in
23 good standing of the Maryland Bar for a period of at least five (5)
24 years prior to his appointment. He may not practice law before
25 any County agency except to perform his duties and functions as
26 People's Counsel.

27 (c) The People's Counsel may be removed for cause by
28 the Council on the recommendation of the County Executive, Council
29 President or BY A MAJORITY VOTE OF THE ENTIRE MEMBERSHIP OF
30 the People's Counsel Citizens' Advisory Board; but only upon the
31 affirmative vote of not less than five (5) members of the
32 Council.

1 (d) In performing his functions, the People's Counsel
2 shall have the following powers and duties:

3 (1) He shall have the authority to appear before
4 any governmental agency on behalf of the Citizens of Harford
5 County in all matters and proceedings related to planning, zoning,
6 and other land use and development matters and proceedings and
7 he shall have standing as an aggrieved party.

8 (2) He shall have the authority to appear as a
9 party in interest before any State or Federal court on behalf of
10 the Citizens of Harford County in all matters and proceedings
11 related to planning, zoning and other land use and development

16 Appeals and County Council of Harford County on behalf of the
17 Citizens of Harford County in any matter or proceeding now pending
18 or hereafter instituted before and under the jurisdiction of those
19 officers or bodies in which he may deem the public interest to be

30 (6) The People's Counsel may hire from time to
31 time, as necessary for specific proceedings, persons to testify

1 who receive or disburse County funds cannot be utilized and to
2 expend such sums for compensation for these persons as are
3 provided by appropriation ordinances.

4 (7) Under no circumstances can the People's
5 Counsel be considered by private parties as representing or
6 protecting the interests of private parties insofar as those
7 interests are different from the general public's interests.
8 However, this does not preclude the People's Counsel from
9 advancing arguments of private parties or having private parties
10 listed as parties to a case or proceeding if it furthers the
11 interests of the public in general. A determination of a Court
12 or administrative agency to the contrary shall not be a ground for
13 denying standing of, or relief requested by, the People's Counsel.
14 Section 2-30.2. People's Counsel Citizens' Advisory Board.

15 (a) There is hereby established a People's Counsel
16 Citizens' Advisory Board consisting of seven (7) members to be

27 perform their functions and shall meet as requested by the
28 People's Counsel. The Board shall adopt such rules and regulations
29 as necessary in the manner provided by Section 807 of the Charter.

30 (c) The Board may provide guidance to and make
31 recommendations to the People's Counsel regarding any matter
32

1 referred to them by the People's Counsel, County Council, or as
2 requested by any citizen or group of citizens of Harford County.
3 The Board need only record and file with the Secretary of the
4 Council those recommendations they make to the People's Counsel.

5 (d) When requested, the Board may direct the People's
6 Counsel to enter his appearance in a particular matter, case or
7 proceeding to protect the interests of the public in general. If
8 the People's Counsel disagrees with the direction of the Board,
9 the matter shall be referred to the Council Attorney for determina-
10 tion.

11 (D) WHEN REQUESTED, THE BOARD MAY BY A MAJORITY VOTE OF
12 THE ENTIRE MEMBERSHIP, DIRECT THE PEOPLE'S COUNSEL TO ENTER HIS
13 APPEARANCE IN A PARTICULAR MATTER, CASE OR PROCEEDINGS TO PROTECT
14 THE INTEREST OF THE PUBLIC IN GENERAL.

15 Section 2. *And Be It Further Enacted*, that if any section, clause,
16 phrase, word, portion or particular application of this Act is for
17 any reason held invalid or unconstitutional by any court of
18 competent jurisdiction such section, clause, phrase, word, portion
19 or particular application shall be deemed a separate, distinct
20 and independent provision or application and such holding shall
21 not affect the validity of the remaining portion or subsequent
22 application hereof.

23 Section 3. *And Be It Further Enacted*, that this Act shall take
24 effect sixty (60) calendar days following the date it becomes
25 law or on the date that the provisions of Council Bill No. 76-35

27 whichever date is later; provided, however, that if Council Bill
28 No. 76-35 is not adopted by the voters of Harford County, this
29 Act shall be null and void without the necessity of further action
30 by the County Council.

Dear Mr. Niles:

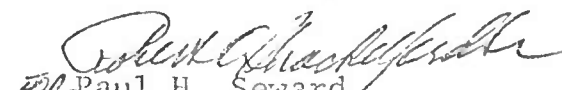

We have an approved project application for \$10,000 of Rescue Equipment for the Delta-Cardiff Volunteer Fire Company.

In order to proceed with bidding and purchase of this equipment, we will need authorization by the County Council for the expenditure and receipt of reimbursement from the Federal Defense Civil Preparedness Agency (\$5,000) and the balance from the Delta-Cardiff Volunteer Fire Company.

The President of this company, John Williams, works in Harford County Central Alarm and has stated that as soon as bids are received and awarded, his company stands ready to give the county a check for 50% of the total of the awarded bid.

Request that your office initiate the proper request to Council for a supplemental appropriation of \$11,000. The additional \$1,000 would be to cover added cost of a radio, also authorized for reimbursement, should the Volunteer Fire Company desire to purchase same.

Sincerely,

RE: P/A 13/76/07

Dear Sir:

Request that Project Application 13/76/07 be amended to authorize items and quantities listed on attachment. Justification is attached to equipment list.

Items requested will be procured with the aid of the \$5,000.00 Federal funds already approved. No additional funds are required.

This matter has been discussed with Jim King, Regional Field Officer, Region II and Dr. Charles Browne, Area Coordinator and is submitted in the format suggested during this discussion.

The truck has a gross weight limit of 10,000 lbs. (vehicle weight plus load). The vehicle less equipment and personnel was weighed on a vehicle scale and totaled 5,720 lbs. This plus estimated equipment weight of 900 lbs. and personnel weight (4x180) of 720 lbs. equals 7,340 lbs. This indicates that the total of the equipment requested plus personnel will not exceed the pay load of the truck.

Sincerely,

Paul H. Seward

When the heavy duty rescue truck was procured for Abingdon Volunteer Fire Company through P/A #13-75-04, the light duty truck was transferred to Delta-Cordiff Volunteer Fire Co., after all usable equipment was withdrawn for use on the new heavy duty truck. The equipment on the attached with justification, with the radio, is to be placed on the light duty truck to complete its operational status. This light duty truck will be capable of taking care of the majority of severe accidents in the northern part of the county saving long runs now required for the heavy duty unit. This Volunteer Fire Co. has an on-going program of training its personnel for rescue work through the University of Maryland.

An Assistant State's Attorney will continue on a part time basis, approximately 12-15 hours per week, and will diligently pursue all Paternity Petitions, URESA Petitions and Criminal Non-Support cases referred by the Harford County Department of Social Services.

It should be noted that the Assistant State's Attorney has been averaging 13.20 hours per week from 1/1/76 to 9/3/76.

Responsibilities will include reviewing open cases with the Department of Social Services and the Department of Parole and Probation to ascertain not only the current status and arrearages owed in particular cases but also to determine what arrangements may be worked out with the deserting parent in order to secure timely support reimbursement.

Will continue to provide counsel and guidance in investigations and functions related to support activities.

Will continue to prosecute cases in the District Court and Circuit Courts of Harford County in the areas of Criminal Non-Support, Paternity Suits and URESA Actions and other related legal functions.

PART II - PROGRAM NARRATIVE (Cont'd.)

The Assistant State's Attorney handling this program will be on a part-time basis devoting 12-15 hours per week to the Support Unit. He will be responsible for pursuing Non-Support and Paternity Actions as well as Uniform Reciprocal Cases, working closely with the Department of Social Services and the Department of Parole and Probation of Harford County. He will continue to correspond with other jurisdictions in an effort to resolve as many URESA Cases as possible whether acting as "Initiating State or Responding State".

The Support Unit has obtained Orders to collect a total dollar amount of \$12,673.00 in Paternity, Criminal Non-Support and URESA type of actions. This figure is expected to increase in our second year of operation in light of the passage of recent legislation in the Support area, namely Chapter 496 (House Bill 1366) and Chapter 773 (House Bill 1473), The Annotated Code of the Public General Laws of Maryland, 1976.

This will be accomplished by:

1. Representing the Wife and/or Department of Social Services at the District Court level in Criminal Non-Support matters and obtaining Support Orders from the District Court where possible.
2. Handling Paternity Cases at the Circuit Court level and obtaining Court Orders for support where appropriate.
3. Representing Petitioner in URESA Actions, ascertaining through a hearing at the State's Attorney's Office the current financial ability of the husband and vigorously pursuing a Support Order based on his ability to pay.
4. Overseeing liaison and coordination with the Department of Parole and Probation, Department of Social Services, District Court, and Circuit Court for Harford County, with a view toward smooth functioning operations between these agencies and the Courts.

6 time to time by directive of the County Executive or by
7 legislative act of the Council not inconsistent with the Charter
8 and other applicable laws.

9 Section 2-127. Procurement Assistance.

10 (a) The Director of the Department of Procurement shall
11 have the authority to call upon any agency to furnish information
12 or otherwise assist in the performance of purchasing functions
13 and it shall be the duty of any such agency to furnish any such
14 information or assistance as shall be within the agency's scope.

15 Section 2-128. Consolidated Requirements.

16 (a) Using agencies shall advise the Director of the
17 Department of Procurement in advance as to their requirements in
18 order to secure quantity prices and discounts by consolidating
19 requirements and bulk buying whenever practicable.

20 Section 2-129. Cooperative Purchasing.

21 (a) When considered in the interests of the County, the
22 Director of Procurement, with the approval of the County
23 Executive, may undertake programs involving joint or cooperative
24 purchase with other public jurisdictions within the state or
25 with the State of Maryland.

26 Section 2-130. Standardization and Specification.

27 (a) The Director of Procurement shall prepare and secure

31

32

1 Section 2-131. Requisition and Estimates.

2 (a) All using agencies, either by or with the
3 authorization of the head of the Department under which the using
4 agency operates, shall file with the Director detailed
5 requisitions or estimates of their requirements in supplies and
6 contractual services in such manner, at such times, and for such
7 future periods as the Director shall prescribe.

8 (1) Unforeseen Requirements. A using agency shall
9 not be prevented from filing, in the same manner, with the Director
10 at any time a requisition or estimate for any supplies and
11 contractual services, the need for which was not foreseen when the
12 detailed estimates were filed.

13 (2) Revisory Power in Director. The Director shall
14 examine each requisition or estimate and shall have the authority
15 to recommend to the using agency revisions as to quantity, quality
16 or estimated cost. Revision as to quality shall not be less than
17 established standards and specifications.

18 Section 2-132. Prohibition of Interest.

19 (a) Any purchase or contract within the purview of this
20 Chapter in which the Director, or any officer or employee of the
21 County is financially interested, directly or indirectly, shall
22 be void, except that before the execution of a purchase order or
23 contract the Council shall have the authority to waive compliance
24 with this Section when it finds such action to be in the best
25 interests of the County.

26 (b) Gifts and Rebates. The Director and every officer
27 and employee of the County are expressly prohibited from
28 accepting, directly or indirectly, from any person, company,
29 firm or corporation to which any purchase order or contract is,
30 or might be awarded, any rebate, gift, money or anything of

31
32

1 value whatsoever, except where given for the use and benefit
2 of the County. (See also Section 803 of the Charter and the
3 Code of Ethics.)

4 Section 2-133. Competitive Bidding Required.

5 (a) Except as otherwise provided herein, all purchases
6 of, and contracts for, supplies and contractual services, and all
7 sales of personal property which has become obsolete and unusable
8 in an amount of Three Thousand Dollars (\$3,000) or more shall be
9 based on competitive bids. Trade-in of equipment and supplies
10 may be a part of a purchase.

11 Section 2-134. Purchase Orders and Contracts.

12 (a) All purchases made by the County, except from
13 petty cash and emergency purchases, shall be made by issuance of
14 a properly executed purchase order or by a duly executed contract.

15 Section 2-135. Purchase Descriptions and Specifications.

16 (a) Purchase descriptions, specifications, plans and
17 drawings shall state only the actual minimum needs of the County
18 and describe the required supplies, services, equipment or capital
19 improvement projects in a manner which will encourage maximum
20 competition. Purchase descriptions and specifications shall
21 set forth the essential physical and functional characteristics
22 of supplies, services, equipment or capital improvement projects
23 to be purchased. As many characteristics as are necessary to
24 express the minimum requirements of the County should be utilized
25 in preparing purchase descriptions, specifications, plans and
26 drawings such as (1) common nomenclature; (2) kind of material,
27 i.e., type, grade, etc.; (3) electrical data; (4) dimensions,
28 size or capacity; (5) principles of operation; (6) restrictive
29 environmental conditions; (7) intended use; (8) equipment with
30 which the item is to be used; (9) method of testing, inspection
31
32

1 and acceptance; and (10) other pertinent information that further
2 describes the supplies, services, equipment or capital improvement
3 project. Purchase descriptions and specifications shall not be
4 written so as to specify a product or a particular feature of a
5 product peculiar to one (1) manufacturer, and thereby preclude
6 consideration of a product manufactured by another company, unless
7 it is determined that the particular feature is essential to the
8 County's requirements and that similar products of other
9 manufacturers lacking the particular feature would not meet
10 minimum requirements. Generally, the minimum acceptable
11 purchase description shall be the identification of a requirement
12 by use of a brand name followed by the words, Or Equal. Standard
13 specifications shall be utilized to the maximum extent possible
14 for repetitive requirements of supplies, services, equipment or
15 capital improvement projects common to the needs of more than one
16 (1) agency.

17 Section 2-136. Budget Limitations and Allotments.

18 (a) No purchase of supplies, services, equipment or
19 capital improvement projects shall be made for any agency of the
20 County in excess of available unencumbered appropriations or
21 allotments applicable thereto. Except for purchases in an amount
22 of not more than Fifty Dollars (\$50), and emergency purchases,
23 no purchase order or contract shall be executed or payment made
24 out of County funds for purchase of supplies, services, equipment
25 or capital improvement projects unless the County Treasurer or
26 his designee shall first certify that the funds for the proposed
27 purchase are available. (See also Section 520 of the Charter).

28 Section 2-137. Nondiscrimination in Contracts.

29 (a) No contract shall be awarded to any contractor
30 unless the contract contains provisions obligating the contractor
31
32

1 not to discriminate in any manner against any contractor,
2 employee or applicant for employment because of race, creed, color
3 or national origin and further obligating the contractor to
4 include similar provisions in all subcontracts, except subcontracts
5 for standard commercial supplies, equipment or raw materials.

6 Section 2-138. Foreign Made Products.

7 (a) When bids or quotations are received on supplies
8 or equipment of domestic origin versus foreign origin, - price,
9 quality, service and warranty being relatively equal - the
10 domestic product shall be purchased.

11 Section 2-139. Buy Harford County.

12 (a) Purchasing supplies, equipment, capital improvement
13 projects and architectural-engineering-consultant services from
14 vendors and contractors whose place of business is physically
15 located in Harford County is considered to be in the best interest
16 of the County, and such purchases shall be made from local bidders
17 provided that price, quality and service are equal to that which
18 can be obtained from vendors whose place of business is located
19 outside Harford County.

20 Section 2-140. Rental in Lieu of Purchase.

21 (a) Under certain circumstances, the County's equipment
22 requirements may be more economically filled by rental rather
23 than purchase. The decision to rent rather than purchase shall
24 be made by the Director of Procurement, after consultation with
25 the head of the using agency, on a case-by-case basis, and rental
26 should be used where it would be in the County's best interest.
27 Criteria to be considered in each case shall include (but not be
28 limited to):

29 (1) The County requirement is of short duration,
30 and purchase would be costlier than rental.

31

32

1 (2) The probability that the equipment will
2 become obsolete and that replacement within a short period will be
3 necessary.

4 (3) The equipment is special or technical, and
5 the lessor will provide the equipment as well as maintenance and
6 repair services at a lower cost than would otherwise be
7 available to the County. A lease for a term greater than one (1)
8 year's duration shall not be entered into without the approval
9 of the County Council.
10 Section 2-141. Warranties.

11 (a) Contracts and purchase orders normally involve
12 commercial warranty provisions which are standard or customary
13 in the trade. Warranties other than normal commercial warranties
14 shall be used only when it is found by the Director of Procurement
15 to be in the best interest of the County after considering such
16 factors as:

17 (1) Nature of the item being purchased and its
18 end use.

19 (2) Cost of the warranty.

20 (3) Criticality of meeting specifications.

21 (4) Damages to the County that might be expected
22 to arise in event of a defective performance.

23 (5) Cost of correction or replacement in absence
24 of a warranty.

25 (6) Administrative cost and difficulty of
26 enforcing the warranty.

27 Section 2-142. Liquidated Damages.

28 (a) Liquidated damages provisions may be used in
29 contracts under such circumstances that time of delivery or
30 performance is such an important factor that the County may

31

32

1 reasonably expect to suffer damages if the delivery or performance
2 is delinquent and when the extent or amount of such damages would
3 be difficult or impossible to ascertain or prove. When a
4 liquidated damages clause is used, the contract shall set forth
5 the amount which is to be assessed against the contractor for
6 each day of delay. The rate of assessment of liquidated damages
7 must be considered on a case-by-case basis and reasonably fixed
8 with reference to probable actual damages. Determination to use
9 liquidated damages provisions in a contract and determination as
10 to rate of assessment of liquidated damages shall be made by the
11 County Attorney after consultation with the using agency.

12 Liquidated damages provisions shall be included in all contracts
13 of Twenty-five Thousand Dollars (\$25,000) or more for capital
14 improvement projects.

15 Section 2-143. Bid Informalities and Irregularities.

16 (a) The contract awarding authority, with the approval
17 of the County Attorney, may waive informalities and irregularities
18 in bids submitted if such irregularities do not violate any
19 applicable provisions of any rules and regulations or law if such
20 action is considered to be in the best interest of the County.

21 Section 2-144. Board of Estimates, Powers, Duties.

22 (a) The Board of Estimates shall have the responsibility
23 for the awarding of all contracts awarded under the procedures of
24 Section 2-145 that are in an amount of Twenty-five Thousand
25 Dollars (\$25,000) or more; and shall award all contracts that
26 are awarded under Section 2-147 that are in an amount of Two
27 Thousand Five Hundred Dollars (\$2,500) or more; and shall also
28 approve all purchases, sales or leases of real property. All
29 other contracts shall be awarded by the County Executive or the
30 Director when such authority is delegated to him by the County
31 Executive in writing.

32

1 Section 2-145. Formal Contract Procedure.

2 (a) All supplies and contractual services, except as
3 otherwise provided herein, when the estimated cost thereof shall
4 exceed Three Thousand Dollars (\$3,000), shall be purchased by
5 formal, written contract from the lowest responsible bidder,
6 after due notice inviting bids. All sales of personal property
7 which has become obsolete and unusable, when the estimated value
8 shall exceed Three Thousand Dollars (\$3,000), shall be sold by
9 formal written contract to the highest responsible bidder after
10 due notice inviting bids.

11 (b) Notice Inviting Bids:

12 (1) Newspaper. Notice inviting bids shall be
13 published at least once in at least one (1) newspaper in the
14 County and at least ten (10) days preceding the last day set for
15 the receipt of bids.

16 (A) Scope of Notice. The newspaper notice
17 required herein shall include a general description of the
18 articles to be purchased or sold, shall state where bid blanks
19 and specifications may be secured, and the time and place for
20 opening bids.

21 (2) Prequalified Bidders' List. The Director
22 shall also solicit sealed bids from a representative number of
23 responsible prospective suppliers who have requested their names
24 to be added to a prequalified bidders' list, which the Director
25 shall maintain, by sending them a copy of such notice as will
26 acquaint them with the proposed purchase or sale. Invitations
27 sent to the vendors on the bidders' list shall be limited to
28 commodities that are similar in character and ordinarily handled
29 by the trade group to which the invitations are sent. Failure
30 to notify prospective suppliers on the vendors' or bidders' list
31 shall not invalidate any bids or contracts.

32

1 (3) Bulletin Board. The Director shall also
2 advertise all pending requests for proposals or sales by a notice
3 posted on the public bulletin board in the County Office Building.

4 (c) Bid Deposits. When deemed necessary by the
5 Director, bid deposits shall be prescribed in the public notices
6 inviting bids. Unsuccessful bidders shall be entitled to return
7 of the posted surety where the Director has required such. In
8 addition to any other damage incurred by the County by the
9 successful bidder's refusal to enter into the contract, a
10 successful bidder may be required to forfeit any surety required
11 by the Director upon failure on his part to enter a contract
12 within ten (10) days after notice of the award is sent to him,
13 unless extended by the County.

14 (d) Bid Opening Procedure.

15 (1) Sealed. Bids shall be submitted sealed to the
16 Director and shall be identified as a bid for a specific contract
17 on the envelope.

18 (2) Opening. Bids shall be opened in public at
19 the time and place stated in the public notices.

20 (3) Tabulation. A tabulation of all bids received
21 shall be posted for public inspection.

22 (e) Rejection of Bids. The contract awarding authority
23 shall have the authority to reject all bids, parts of all bids or
24 all bids for any one (1) or more supplies or contractual services
25 included in the proposed contract, when the public interest will
26 be served thereby.

27 (1) Bidders in Default to County. The awarding
28 authority shall not award a contract to a contractor who is in
29 default on the payment of taxes, licenses or other monies due the
30 County, regardless of whether or not the contractor would otherwise

31

32

1 qualify as the lowest responsible bidder. Upon determining that
2 a contract is in default to the County, the Director shall notify
3 the contractor in writing, and shall state the reasons for such
4 default. A bidder is not in default to the County if he is
5 disputing the alleged monies due by appropriate administrative
6 or judicial proceedings.

7 (f) Award of Contract.

8 (1) Authority in Director. The Director shall
9 have such authority to award and execute contracts as shall be
10 delegated to him in writing by the County Executive.

11 (2) Lowest Responsible Bidder. Contracts shall be
12 awarded to the lowest responsible bidder. In determining "lowest
13 responsible bidder", in addition to price, the awarding authority
14 may consider:

15 (A) The ability, capacity and skill of the
16 bidder to perform the contract or provide the service required.

17 (B) Whether the bidder can perform the
18 contract or provide the service promptly, or within the time
19 specified, without delay or interference.

20 (C) The character, integrity, reputation,
21 judgment, experience and efficiency of the bidder.

22 (D) The quality of performance of previous
23 contracts or services to the County or other owners.

24 (E) The previous and existing compliance
25 by the bidder with laws and ordinances relating to the contract
26 or service.

27 (F) The sufficiency of the financial
28 resources and ability of the bidder to perform the contract or
29 provide the service.

30 (G) The quality, availability and
31
32

1 adaptability of the supplies or contractual services to the
2 particular use required.

3 (H) The ability of the bidder to provide
4 future maintenance and service for the use of the subject of the
5 contract.

6 (3) Award to Other Than Low Bidder. When the
7 award is not given to the monetarily lowest bidder, a full and
8 complete statement of the reasons for placing the order elsewhere
9 shall be prepared by the Director and filed with the other papers
10 relating to the transaction.

11 (4) Tie Bids.

12 (A) Local Vendors. If all bids received are
13 for the same total amount or unit price, quality and service being
14 equal, the contract shall be awarded to a local bidder, if the
15 tie bidders otherwise equally qualify as lowest responsible
16 bidders.

17 (B) Outside Vendors. Where subsection (A)
18 is not in effect, the County shall award the contract to one (1)
19 of the tie bidders by drawing lots in public, if the tie bidders
20 otherwise equally qualify as lowest responsible bidders.

21 (5) No Bids. If no bids are received where
22 competitive bidding is required by this law, the Director is
23 authorized to proceed under Section 2-146 and/or Section 2-149,
24 whichever is more appropriate.

25 (6) Performance; Payment and Maintenance
26 Bonds. The Director shall have the authority to require
27 performance and/or payment bonds, before a contract is entered
28 into, in such amount as he shall find reasonably necessary to
29 protect the best interests of the County. The Director of
30 Public Works may require maintenance bonds for capital improvement
31
32

1 projects in an amount and for a duration of time he may deem
2 appropriate.

3 (7) The Director shall notify all persons who
4 submitted bids and were not awarded the contract that their bid
5 was not accepted.

6 (g) Capital Improvement Projects.

7 (1) Plans and Specifications. When a capital
8 improvement project is to be performed by contract, the Director
9 of Public Works shall prepare or cause to be prepared necessary
10 plans, specifications and cost estimate for submission to the
11 Director of Procurement.

12 (2) Invitation to Bid and Public Announcement.
13 Upon receipt of a properly approved capital improvement project,
14 including plans, specifications and cost estimates, the Director
15 shall prepare bid forms, issue invitations to bid and make
16 public announcements as prescribed in this Article for formal
17 competitive bidding or professional or other consultant services.

18 (3) Contractor Selection. After evaluation of
19 bids and determination as to the lowest responsible bidder, a
20 contract award notification letter shall be sent by the Director
21 of Procurement to the lowest responsible bidder along with
22 contractual documents for execution by the lowest responsible
23 bidder.

24 (4) Contract Execution. Unless extended by the
25 County, the successful bidder must, within ten (10) days after
26 receipt of contract award notification letter and contractual
27 documents, sign and return the contract along with required
28 performance and payment bonds and other pertinent documents to
29 the Director of Procurement. Upon return of the documents to
30 the County, the contract shall be executed by the County Executive
31 or his designee.

32

1 (5) Notice to Proceed. After the contract has
2 been fully executed, the Director of Procurement shall provide the
3 contractor and the Director of Public Works with a copy of the
4 completed contract and after consultation with the Director of
5 Public Works and the Treasurer issue a "Notice to Proceed" to
6 the contractor.

7 (6) Contract Administration, Construction Control
8 and Supervision. The Director shall be responsible for the
9 supervision of the administration of the contract and the Director
10 of Public Works shall be responsible for the supervision of the
11 execution and performance of all contracts for capital projects
12 constructed for Harford County, Maryland, and as agreed upon by
13 and for other using agencies.

14 (h) Prohibition Against Subdivision. No contract or
15 purchase shall be subdivided to avoid the requirements of this
16 Chapter.

17 Section 2-146. Open Market Procedure.

18 (a) All purchases of supplies, contractual services and
19 all sales of personal property which has become obsolete and
20 unusable of less than the estimated value of Three Thousand
21 Dollars (\$3,000) shall be made in the open market, without
22 newspaper advertisement and without observing the procedure
23 prescribed in Section 2-145 for the award of formal contracts
24 and Section 2-147 for the award of contracts for consultant and
25 other professional services.

26 (b) Minimum Number of Solicitations. All open market
27 purchases shall, wherever possible, be based on at least three
28 (3) competitive price quotations, and shall be awarded to the
29 lowest responsible bidder in accordance with the standards set
30 for in Section 2-145 above.

31
32

1 (c) Notice Inviting Bids. The Director shall solicit
2 price quotations by: (1) Direct mail request to prospective
3 vendors, and/or (2) By telephone, or (3) The solicitation of
4 price quotations should be from as many suppliers as are required
5 to obtain a reasonably complete sampling of the market. The list
6 of potential suppliers should be rotated, always including the
7 current source, so that over a period of time each will be
8 contacted. The solicitation should cover a spread of multiple
9 quantities sufficient to indicate the price breaks or discounts
10 for quantity purchases and possible transportation economics.

11 (d) Recording. The Director shall keep a record of all
12 open market orders and the price quotations submitted in
13 competition thereon and such records shall also be open to public
14 inspection.

15 Section 2-147. Consultant and Other Professional Services.

16 (a) General. Procurement of consultant and other
17 professional services, except for the employment of special legal
18 counsel pursuant to Section 403(c) of the Charter and physicians'
19 services, shall be through negotiation on the basis of qualifica-
20 tion and competence of the prospective consultant, the technical
21 proposal as to the proposed work and the price to the County. The
22 procurement of consultant or other professional services by the
23 County shall be by written contract. The contract shall contain
24 among other things:

25 (1) A complete description of the services to be
26 performed.

27 (2) Time period over which services are to be
28 performed and completion date.

29
30
31
32

1 (3) Total price to be paid for such services.

2 (4) A clause permitting audits of the records of
3 the contractor as they pertain to specific items of the contract
4 with the County. Reimbursable expenses, if any, shall be clearly
5 defined in the contract as to limitations and allowability thereof
6 and shall be expressed in terms of ceilings. Per diem rates, if
7 any, shall include "not to exceed" limits. No consultant or
8 other professional services shall be contracted for on a time or
9 hourly basis unless there shall be established in the contract a
10 ceiling price for the total services to be rendered with the
11 contractor assuming the obligation for completion of all required
12 services at a price not to exceed the ceiling price. Further,
13 contracts for consultants and other professional services shall
14 contain provisions requiring approval of the Director of the
15 Department or using agency that is responsible for the administra-
16 tion of the contract of all proposed subcontracts, consultants or
17 associates.

18 (b) Qualification Questionnaire. The Director of
19 Procurement, not less than quarterly, by public advertising, will
20 require that all firms interested in providing professional
21 consultant services for Harford County, submit a statement of
22 their area of interest together with a questionnaire similar to
23 the U. S. Government's Standard Form 251 and any other data
24 pertinent to the description of capabilities of their firm.
25 These submissions will be under the supervision of the Director,
26 maintained, reviewed and monitored by the Director of the
27 Department of Public Works or cognizant Department head or using
28 agency. All statements and other data will be updated annually.
29 Insofar as possible, the Director shall list in the advertisement
30 the forthcoming projects and contracts.

31

32

1 (c) Negotiation Procedures. As services for projects
2 are required, the Director shall appoint a negotiation committee
3 (Committee) of not less than three (3) members, one (1) of which
4 shall be the cognizant using agency head or his designee and two
5 (2) others at the choice of the Director.

6 (1) The Committee shall, first, prepare a report
7 indicating the project description, scope of services being
8 sought, funding data, estimated construction costs and, finally,
9 a list of consultants deemed eligible. The list shall include
10 a representative number of qualified firms whose principal place
11 of business is located in the County and will include a total of
12 at least three (3) firms. The number will depend only upon
13 apparent qualifications and shall be listed in order of preference.
14 The list will be the result of reviewing all applicable qualifica-
15 tion questionnaires. The report shall state, insofar as possible,
16 the reasons for the proposed order of preference.

17 (2) The report will be submitted to the Director
18 for review and comment. If the Director disagrees with the
19 report, he shall state his reasons for the disagreement and make
20 recommendations to the Committee. If the Director disagrees
21 with the report, the Committee shall consider his reasons and
22 recommendations, confirm or modify their report and proceed with
23 negotiations.

24 (3) The Committee will negotiate technical and
25 price proposals with at least the three (3) most preferred firms
26 of those firms listed in the finalized order of preference. The
27 Committee shall compare the proposals with their finalized report
28 as a basis for negotiations. The Committee shall negotiate with
29 the selected firms without considering the order in which they
30 were listed in the Committee's initial report to the Director.

31 (4) After negotiations are completed, the
32

1 Committee shall forward their results to the Director for submission
2 to the Board of Estimates for selection and awarding of the
3 contract.

4 (d) Public Announcement of Contract Award. The
5 selection of a consultant and award of all contracts for consulting
6 and other professional services shall be made public by posting
7 on a bulletin board in the County Office Building available to
8 the public information such as:

9 (1) Description or general nature of the services
10 contracted for.

11 (2) Performance period covered by the contract.

12 (3) Name and address of the firm or person to whom
13 the contract was awarded.

14 (4) Total dollar amount of the contract.

15 Section 2-148. Emergency Purchases.

16 (a) By Director. In case of an emergency which

*G.P.M. = Gallons Per Minute

1 Section 1-2.

2 (a) Meter sizes are based upon the American Water Works
3 Association maximum safe operating capacities with a normal
4 pressure entering the meter.

5 (b) Peak instantaneous demand is based upon diversity
6 curves for gallons per minute versus fixture units established by
7 American Standard, National Plumbing Code, American Society of
8 Mechanical Engineers (1955 Edition).

9 (1) Values beyond five hundred (500) gallons per
10 minute are obtained by geometric extension.

11 (c) Utilization of Schedule. A specific area connection
12 rate can be determined for a customer by establishing the cus-
13 tomer's peak demand in terms of gallons per minute or the fixture
14 unit count served at peak demand. By taking that information and
15 locating the appropriate corresponding numbers on the schedule
16 (next higher number used if customer's not listed), follow the
17 schedule line for the listed area connection rate.

18 (d) Fixtures. Fixtures are outlets for water in the
19 customer's structure.

20 (e) (1) Except as otherwise provided for by law, the
21 rates established by this Act do not apply to those persons who
22 already have a rate previously established by Harford County for
23 their water or sewer connection. This Act shall also not apply
24 where specific rates are set in a valid contract executed prior
25 to the effective date of this Act. The rates established by this
26 Act shall also not apply to the following petitioned projects:
27 Dembytown Water Project #6328, Van Bibber West Sewer Project
28 #6121, Leeswood Sewer Project #6293, and Bauers Drive Sewer
29 Project #6306.

30 (2) Except as otherwise provided for by law, in
31 all other instances, not so excluded in Subsection (1), the rates
32 established by this Act shall apply from and after the effective

1 date of this Act.

2 SECTION 1-3. PAYMENT OF CHARGES UNDER THE PROVISIONS OF THIS
3 ACT SHALL BE ADJUSTED UPON THE ADOPTION OF ANY NEW RATES THAT
4 MAY BE ADOPTED WITHIN TWO (2) YEARS AFTER THE EFFECTIVE DATE
5 OF THIS ACT.

6 (a) THE COUNTY SHALL EMPLOY AN ECONOMIC CONSULTANT
7 OR FIRM TO ANALYZE THE PREVAILING AND PROJECTED SITUATION IN
8 HARFORD COUNTY FOR THE PURPOSE OF RECOMMENDING CHARGES AND
9 ASSESSMENTS THAT WILL EFFECTIVELY PROVIDE FOR THE RAISING OF
10 REVENUE REQUIRED TO SUSTAIN THE COUNTY'S WATER AND SEWER SYSTEM.

11 (b) AFTER NEW CHARGES ARE ADOPTED, ADJUSTMENTS, IF ANY,
12 WILL BE MADE TO THE PERSON WHO OWNS THE PROPERTY AT THE TIME THE
13 ADJUSTMENT IS MADE.

14 (c) THE TREASURER SHALL DETERMINE THE METHOD OF
15 ADJUSTMENT EXCEPT THAT A REASONABLE UNIFORM METHOD SHALL BE
16 ADOPTED FOR A CLASS OR CLASSES OF OBLIGORS/RECIPIENTS OF THE
17 ADJUSTMENT, IF ANY.

18 (d) A RATE REDUCTION UNDER THE PROVISIONS OF THIS
19 SECTION SHALL NOT BE CONSIDERED OR EFFECTUATED DUE TO THE RECEIPT
20 OF UNANTICIPATED REVENUES FROM ANY SOURCE.

21 Section-2: And Be It Further Enacted; that this Act is hereby
22 declared to be an Emergency Act, necessary for the correction of
23 a fiscal deficit in the County water and sewer service and shall
24 take effect on the date it becomes law.

25 SECTION 2. AND BE IT FURTHER ENACTED, THAT THIS ACT SHALL TAKE
26 EFFECT SIXTY (60) CALENDAR DAYS FROM THE DATE IT BECOMES LAW.

45 SOUTH MAIN STREET / BEL AIR, MARYLAND 21014 / (301) 838-6000 / 879-2000

June 14, 1976

The Honorable Habern W. Freeman, Jr.
President, Harford County Council
45 South Main Street
Bel Air, Maryland 21014

Dear Mr. President:

Re: Veto - Bill No. 76-31 (as amended)

In accordance with Section 311 of the Harford County Charter, I am exercising my option to veto individual items in the Annual Budget and Appropriation Ordinance. This has been done with careful thought and weighs the requirement to run an efficient government and the needs of the citizens, with the taxpayers' ability to pay for this and future budgets. An overall philosophy of living within our means without mortgaging the future has been applied. The County must follow a prudent financial course to avoid the serious pitfalls inherent in other methods.

An updated review of our estimated cash position for June 30, 1976, with the latest available financial information has been made to assure the most favorable tax rate for the County. Due to this review, I can now reasonably forecast an additional \$166,000 in revenues above the fiscal 1976 forecast. Also for the fiscal 1976 expense budget an additional \$260,000 is anticipated in unexpended appropriations. Accordingly, I have revised the Statement of Estimated Cash Surplus (pages six and seven of the Budget Message) and indicated a combined total of the above in the amount of \$426,000 available to apply to next year's budget. This amount replaces the Council generated figure of \$1,025,582 which has raised serious questions concerning legality.

I have also taken the below listed action on proposed fiscal 1977 appropriations. This action is taken to assure our expenses do not inflate beyond the reasonable affordability of our taxpaying citizens.

The Honorable Habern W. Freeman, Jr.
June 14, 1976

GENERAL FUND

Board of Education:

<u>Category</u>	<u>Veto Amount (To eliminate part of Council Restoration)</u>
Administrative Services	\$ 33,000
Instructional Salaries	180,000
Other Instructional Costs	85,000
Pupil Personnel Services	2,000
Health Service	15,000
Operation of Plant and Equipment	248,000
Maintenance of Plant and Equipment	10,000
Fixed Charges	7,000
Student Body Activities	20,000
Total	\$ 600,000

This action will still allow an increase of \$3,446,442 or 16.9% over the current year's County appropriation to the Board of Education. I feel that this will be quite ample to allow for inflation and the estimated 1.5% increase in enrollment. The veto does not interfere with the final salary package as proposed by the Board of Education. Funds remain in the Instructional Salary Category to allow for twenty (20) additional teachers over this year's level. If my veto is sustained, the following property tax rates will be applicable.

<u>General Fund</u>	<u>*Highway Fund</u>	<u>*Total</u>
\$ 2.58	\$.39	\$ 2.97

*Applies to property outside the three (3) towns.

These are the same rates approved by Council Resolution 23-76 on May 25, 1976.

16 hold alleging that a dog disturbs the peace and quiet of any

24 shall review said report, and if in their judgment the amount of
25 damages stated is unfair, they shall award such amount as they deem
26 fair which award shall be paid out of the fund hereby created;
27 provided, however, that the said sworn report of the appraisers
28 shall be deemed prima facie evidence of the fairness of the award

30 shall not change such an award unless they shall have personal
31 knowledge of its unfairness, or shall receive competent testimony
32 to the effect that the award is in excess of a fair commercial

1 valuation of the sheep, poultry or livestock injured or destroyed
2 by dogs. If the owner of the dog or dogs doing the damage is
3 known, it shall be the duty of the County to notify such owner or
4 owners to destroy the dog or dogs immediately. If such dog or

7 as long as the approved bond, that has been filed with the Board,
8 in accordance with the provisions of this Article, shall remain in
9 full force and effect. Every such license or renewal of same
10 shall become void and of no effect should any bond or insurance
11 contract become inoperative, ineffective or cancelled, regardless
12 of the regular date of expiration of said license.

13 (e) Any electrical installation in Harford County shall
14 be accomplished under the supervision of at least one (1)
15 licensed master or journeyman electrician as defined in this
16 Chapter.

2 particular type of installation applied for. All information
3 supplied on or with the application shall be strictly confidential
4 and shall be treated the same as personnel files.

14 Dollars (\$2,000) in the case of a master electrician's license
15 and One Thousand Dollars (\$1,000) in the case of limited or
16 restricted electrician's license. No bond shall be required for a
17 journeyman electrician's license. The bond shall be conditioned
18 upon the faithful performance of any and all work entered upon or
19 contracted for by the licensee and shall render harmless and
20 indemnify the owner, or real party in interest in the property for
21 which any such material is furnished or service performed against
22 loss, damage or injury which shall occur because of lack of skill,
23 or because of failure to use suitable or proper material in the
24 performance of any work contracted for or undertaken by any
25 licensee, or his agents and employees.

26 (c) It shall be the duty of the Director upon receipt
27 of an application for an electrician's license to investigate the

3 County.

4 (d) It shall be the duty of the Board to certify to the
5 Director within sixty (60) days after the date of the applicant's
6 examination whether the applicant is qualified for the license
7 applied for on the basis of said examination and the information
8 provided it by the Director.

9 (e) In the case of applications for renewals of existing
10 Harford County electrician's license, it shall be the duty of the
11 Director to withhold issuance of such license upon a finding by
12 the Board that said licensee has committed acts which are in
13 violation of the provisions of this Chapter.

19 a third person to be selected by these two (2); and the decision
20 of the Board of Arbitration, or a majority of its members, shall
21 be final and binding upon all the parties to the appeal.

22 (g) In all instances where there is a requirement that an
23 applicant for a license meet a preliminary time provision, it

28 certifying to the period of service.

8 equipment and apparatus, all coming within the purview of and
9 subject to all provisions of this Chapter, for a period of not
10 less than three (3) years preceding the date of his application,
11 under the direction and supervision of a master electrician. The
12 Board may substitute a formal course of study and training in
13 electrical installation completed at a trade school or other
14 educational institution for experience, if in the opinion of the
15 Board such training provided comparable experience to that
16 attainable under the supervision of a master electrician.

17 Section 8A-17. Limited Electrician, Eligibility.

18 (a) Any person who desires to install, repair, maintain
19 and erect electrical equipment as a limited electrician, as

10 applicant with the prescribed forms.

11 (b) An applicant may be licensed hereunder only to a
12 particular place which will be noted on the license certificate.
13 He shall have been regularly and principally employed or engaged
14 in electrical construction or maintenance for three (3) years
15 preceding application for this license. Restricted licenses

5 (b) In order to qualify as having passed said examination,
6 the applicant shall receive a grade constituting at least
7 seventy-five percent (75%) of the total possible point credits
8 in the examination.

9 (c) The use of any unauthorized material or cheating by
10 an applicant during his examination shall cause the immediate
11 rejection of his application and bar him from re-examination for
12 six (6) months.

13 (d) Regular examination periods shall be held at least
14 three (3) times each year at intervals of not greater than four
15 (4) months. Written notice of the date, hour and place of
16 examination shall be mailed to each eligible applicant at least
17 ten (10) days prior to the date of the examination.

18 (e) Any applicant who fails to pass any examination shall

3 provided such business, maintenance or repair work is conducted
4 under such qualified supervision as the Board deems adequate and
5 provided that both of the following requirements are met:

6 (1) All bonding and insurance requirements are
7 complied with.

8 (2) The master electrician, limited electrician or
9 restricted electrician who qualified shall notify the Board in
10 writing within five (5) days after terminating his services
11 therewith; or the person, firm, company, corporation or partnership
12 shall notify the Board in writing within five (5) days after
13 the said master electrician, limited electrician or restricted
14 electrician has terminated his services.

15 (d) No license issued under this Chapter shall be

18 company, corporation or partnership until all of the requirements
19 of this Chapter have been complied with.

20 (f) A licensee may, by notifying the Board in writing,
21 declare his license(s) inactive. During the period such license
22 or licenses remain inactive, the yearly renewal fee as required by
23 Harford County shall be paid. Bonding required by this Chapter
24 shall be waived for the period said license remains inactive. No
25 license shall be deemed inactive unless all work for which permits
26 have been issued has been completed and has received final
27 inspection and approval by the Department.

28 (g) The Director shall keep a register of all licenses
29 placed on or removed from inactive status and of any master
30 electrician, limited electrician or restricted electrician who
31 changes his affiliation as a qualifying representative of a person,

15 (b) All holders of master electrician, limited electrician,
16 restricted electrician and journeyman electrician licenses shall
17 have identification cards issued by the Department in their

2 nature of the electrical work being performed by the apprentice
3 electrician.

4 Section 8A-24. Revocation or Suspension of License.

5 (a) The Board may suspend, revoke or refuse to
6 renew any license if the holder has secured such license by
7 misrepresentation; failed to maintain the qualifications required by
8 this Chapter; demonstrated a lack of competence inconsistent with
9 retention of the license; engaged in fraudulent business activities
10 or in misleading advertising of products or services; violated the
11 provisions of this Chapter requiring permits; committed an act of

15 electrical work under the authority of his license; or failed to
16 be available to supervise electrical work in accordance with this
17 Chapter.

18 (b) Before ordering the revocation or suspension of an
19 existing electrician's license or the disapproval of any
20 application to renew such license, the Board shall afford the
21 licensee an opportunity for a hearing before the Board to show
22 cause why the license should not be suspended or revoked or
23 renewal denied. The Board shall give at least ten (10) days
24 written notice to the licensee by certified mail or personal
25 service at the last address on file with the Director and such
26 notice shall state the complaint and alleged violation.

27 (1) The Board shall provide for:

28 (A) A hearing, afforded to the licensees.

29 (B) Licensee shall have the right to be

2 revocation or denial is ordered.

3 (c) The Board may require at any time that a master
4 electrician, limited electrician, restricted electrician or

8 has been revoked shall become eligible after ninety (90) days
9 has elapsed from the date of revocation to apply for a new
10 license. Such application shall be considered a new application
11 and shall be submitted pursuant to the provisions of this Chapter.

12 (d) Any person, firm, company, corporation or partnership
13 to whom a license has been denied or whose license has been
14 revoked or suspended or any such person, firm, company, corporation

13 for periods not exceeding sixty (60) days.

14 (d) Repairs Exempted. No permit shall be required to
15 repair portable electrical equipment or lighting fixtures, or to
16 repair or replace sockets, receptacles or snap switches, or to

18 or to replace motors no larger than one (1) horsepower, and of the
19 same horsepower rating.

20 Section 8A-26. Same - Emergency Work, etc.

21 When necessary to make emergency repairs or replacements
22 to electrical installations, or to make branch circuit extensions
23 for switches, receptacles or the like, incidental to such
24 emergency work, such work may be done without a permit; provided
25 that the person doing the same shall first inform the Department
26 either orally or in writing at the time of such emergency giving
27 his name and address and the address where the work is to be done,
28 the nature thereof and when it is to be started. Such person
29 shall file an application for a permit covering such emergency
30 work on the first business day following the performance thereof.

31 Section 8A-27. Same - Temporary Installations.

32 A temporary permit shall be required in connection with

2 period not to exceed six (6) months. Such permit may be extended
3 for an additional period of six (6) months by the Department.

4 ARTICLE 5. INSPECTIONS.

5 Section 8A-28. Notice Upon Completion and Inspection of
6 Installations Generally.

7 Upon the completion of an installation regulated by this
8 Chapter, it shall be unlawful for the holder of a permit issued
9 hereunder to fail to notify the Department of such completion.
10 The Department shall cause the installation to be inspected
11 within forty-eight (48) hours of such notice, exclusive of
12 Saturdays, Sundays and holidays, or as soon thereafter as
13 practicable.

14 Section 8A-29. Inspection of Covered Installations.

15 (a) When any part of an installation regulated by this
16 Chapter is to be hidden from view by the permanent placement of
17 part of a building, the person making the installation shall
18 notify the Department; and such installation shall not be concealed
19 until it has been inspected and approved by the Department;
20 provided that on large installations where the concealment of
21 electrical equipment proceeds continuously, the person installing
22 the same shall give the Department notice thereof so that
23 inspections may be made periodically during the progress of the
24 work.

25 (b) The Department shall have the authority to remove, or
26 require the removal of, any structure that prevents proper
27 inspection of any electrical equipment.

28 Section 8A-30. Inspection of Industrialized Buildings.

29 The inspection of industrialized buildings by inspectors
30 of the Department may be required from time to time in accordance
31 with the Harford County Code where such structures have not been
32 approved by an acceptable inspection agency.

1 Section 8A-31. Cut-In Certificates.

2 (a) No electric light or power company shall supply
3 electricity or power to any electrical equipment for the
4 installation of which a permit is required under this Chapter,
5 and no person shall connect any such electrical equipment to a
6 supply of electricity or power, except in accordance with a
7 cut-in certificate issued by the Department.

8 (b) If, after the inspection, the Department finds the
9 installation to be in conformity with the provisions of this
10 Chapter, it shall issue a cut-in certificate therefor, authorizing
11 the use of the installation and its connection to the supply of
12 electricity and power and shall send such certificate to the
13 electric light or power company supplying the same. Such
14 certificates may be issued for an entire installation or part
15 thereof.

16 (c) Temporary cut-in certificates shall be issued for
17 temporary installations authorized pursuant to Section 8A-26 of
18 this Chapter and such certificates shall set forth their
19 expiration date, shall expire upon such date unless extended, and
20 shall be cancelled by the Director at any time if the installation
21 is not maintained as required by this Chapter.

22 Section 8A-32. Defective Installations and Equipment.

23 (a) If, upon inspection, any installation for which a
24 permit is required under this Chapter is found to be in violation
25 of the provisions of this Chapter, the Department shall notify the
26 holder of the permit of the nature of such violation in writing
27 and the same shall be corrected within the time limit specified on
28 the notice.

29 (b) If the Director finds that any electrical equipment
30 installed before or after the enactment of this Chapter is
31 dangerous to persons or property because of being defective or
32 improperly used or installed, he shall notify the owner or lessee

1 of the property in writing, setting forth the nature of such
2 dangerous condition, and such person shall make such changes or
3 repairs as are necessary to put such equipment in a safe condition
4 within such period as may be specified by the Director.

5 (c) Upon failure of any person to comply with a notice
6 issued pursuant to this Section, the Director shall revoke any
7 permit which has been issued for the installation of such
8 equipment, shall not issue any cut-in certificate, or shall revoke
9 any such certificate which has been previously issued.

10 (d) If the equipment or installation is connected to a
11 supply of electricity or power, the Director shall have the
12 authority to disconnect the same and shall send notice to the
13 electric light or power companies to discontinue its supply of
14 electricity or power to such equipment or installation, and such
15 supply of electricity or power shall be terminated within
16 twenty-four (24) hours of the receipt of such notice without
17 liability therefor on the part of such electric light or power
18 company.

19 (e) Pursuant to the provisions of this Article; if it
20 has been determined that in fact there were no inspections made
21 that are required by the provisions of this entire Chapter; then
22 the inspector and the master electrician shall be personally
23 liable for any damages that may result.

24 ARTICLE 6. STANDARDS AND REQUIREMENTS FOR INSTALLATION OF
25 ELECTRICAL EQUIPMENT.

26 Section 8A-33. Generally.

27 (a) It shall be unlawful for anyone to install electrical
28 equipment not having the certification of an inspection authority
29 approved by the Department.

30 (b) The standards and requirements of this Chapter shall
31 be based upon the currently designated edition of the National
32 Electrical Code and amendments thereto as adopted by law and are

1 hereby declared to be minimum standards and requirements. Any
2 electrical equipment or installation which is equal or superior
3 to such standards and requirements shall be deemed to be in
4 compliance therewith.

5 (c) Except as otherwise provided in this Chapter,
6 conformity of installations of electrical equipment with such Code
7 and regulations adopted pursuant to this Chapter shall be
8 prima facie evidence that such installations are reasonably safe
9 to persons and property.

10 Section 8A-34. Mobile Homes, Prefabricated or Modular Dwellings.

11 (a) The Department may inspect mobile homes, prefabricated
12 or modular dwellings, buildings or other such structures intended
13 for sale or use in Harford County at the place of manufacture
14 and prior to the concealment of electrical installations in any
15 such mobile homes, prefabricated or modular dwellings by means of
16 a qualified inspector employed by the County. Prior to
17 concealment of electrical installations by the manufacturer, the
18 inspector shall issue a letter of acceptance for those installations
19 visible to and approved by the inspector.

20 (b) Those mobile homes, prefabricated or modular dwellings,
21 buildings or other such structures not inspected prior to
22 concealment of electrical installations shall be accepted for only
23 those electrical installations visible to and approved by the
24 inspector at the time of inspection, and such approval if granted
25 shall be indicated in a letter of acceptance from the Department.

26 (c) As an alternative to the procedure prescribed by
27 subsection (a) or (b) above, the manufacturer may request
28 inspection by Underwriters' Laboratories, Inc. or certification by
29 a State-approved inspection agency such as Underwriters'
30 Laboratories, Inc. to assure that electrical installations conform
31 to the standards and requirements of the Harford County Electrical
32 Code as adopted and in force in Harford County. Such inspection

1 shall be sufficient evidence of compliance with the provisions of
2 this Section, except that County inspection shall be required when
3 installation is accomplished at the home site.

4 (d) Nothing herein shall be construed to require the
5 inspection of electrical installations in mobile homes,
6 prefabricated or modular dwellings, buildings or other structures
7 by Harford County, nor shall anything herein be construed to limit
8 the right to inspection conferred by any other Section or Chapter
9 of the Harford County Code or other applicable law.

10 Section 2. *And Be It Further Enacted*, that if any provision or
11 provisions of this Act, or the particular application thereof,
12 shall be held to be invalid, the remaining provisions and their
13 application shall not be affected thereby. Should any provision
14 hereof be inconsistent with any rule, regulation or policy of
15 any other agency having jurisdiction, such provision shall be
16 invalid, but the remaining provisions and their application shall
17 not be affected thereby.

18 Section 3. *And Be It Further Enacted*, that this Act shall take —

7. PROJECT NARRATIVE

- A. Nature and magnitude of the highway traffic safety problem to which project is directed:

Dependable communications necessary for emergency medical response to highway traffic accidents to ensure the accident site is properly identified, the ambulance is properly routed, expert medical advice is obtainable, and victims are transported to the proper care facility is lacking because emergency vehicle is equipped with only one channel radio, which is often blocked by other users on the same channel.

B. Project objectives:

To improve emergency medical care for highway traffic accident victims by increasing emergency communications capability between the emergency vehicle and the dispatcher and the hospital care facilities.

C. Accomplishments of project to date:

(To be answered only if request involves continuation of existing project being conducted under agreement with the Transportation Safety Division.)

77-43

D. Activities that will be conducted to achieve project objective (please list and number major activities individually):

1. Purchase 4-channel radio communication equipment.
2. Install communication equipment in Joppa-Magnolia Volunteer Fire Company's ambulance.
3. Evaluate success of project and submit Total Project Report.

E. Method and basis that will be used to evaluate success of the project in achieving its objectives:

1. Determine if the communications system meets purchase specifications, and place in service within the time frame specified, and report same to Transportation Safety Division.
2. Determine if the increase from a 1-channel to a 4-channel communications system has benefited the trauma victim, and factually report same to Transportation Safety Division.

F. If project activities will be continued beyond Fund Obligation Period (Item 5), please indicate planned source and amount of funds for such continuation:

The ongoing operational and maintenance cost of equipment will be provided by the ambulance unit through constant fund raising activities, and thus continue to provide care service to the community.

SPECIAL PROVISIONS
LIBER 3 PAGE 698

77-53

1. Implementation of this agreement is contingent upon receipt, by MOMR, of CETA Title I funds from the U. S. Department of Labor.
2. It is agreed and understood that all funds herein contracted are granted funds from the U. S. Government and not from funding sources of any member of the Consortium or its Delegated Authority, MOMR.
3. In order to insure continuity of service between contract years, an operating payment of \$15,561 will be issued within ten (10) days of the approval of this Agreement by the Baltimore City Board of Estimates. Operating payment will be invoiced on Final Voucher.
4. Subsequent payments will be made to the subcontractor on a monthly basis, upon presentation of an appropriate "Invoice for Payment" due the fifth day following the end of each month.

I. Philosophy

It shall be the intent of all components funded through this agreement to offer assistance to those most in need of employability services and most able to benefit from them. Though such clients may be representative of traditionally categorically labeled groups, negative labeling will not be continued as they become CETA clients and move toward unsubsidized employment. It shall, instead, be incumbent upon all contractors and subcontractors to be instrumental in helping employers to be less concerned with what a client has been and more concerned with what the client can become particularly as a result of services or training offered through CETA resources. It shall equally be incumbent upon all contractors to assist enrollees in developing the skills necessary for self reliance, particularly in relation to job search.

I. General Description of Services

Harford County will operate a Summer Youth Work Experience Program to provide:

- a. Meaningful summer work experiences for 14 to 21 year old youth.
- b. Income which will allow the enrollee to stay in school.
- c. Means of self-development in the areas of good work habits, job duties and responsibilities.
- d. Skills that will increase employability after completing school.

The work experience sites will be selected to provide meaningful experiences to youth as well as resulting in tangible improvements to the community or providing direct services to its citizens.

A. Schedule

A minimum of 273 enrollees will receive an average of 217 hours of work experience at the minimum wage rate of \$2.30 per hour during the period of June 20, 1977 through August 31, 1977. Should the minimum wage go up during this contracted period, the average number of hours each enrollee may work shall be adjusted accordingly by the subcontractor. The minimum number of enrollees served shall remain the same.

Within contracted funds the subcontractor may increase the number of enrollees by 10% without permission of the Prime Sponsor. Any increase over the 10% maximum overenrollment level must be approved by the Prime Sponsor.

77-53

B. Eligibility Requirements

LIBER

3 PAGE 700

Youth must meet the following eligibility criteria to qualify for the summer youth work experience program:

1. Resident of Harford County.
2. Youth must be between the ages of 14 and 21, inclusive as of first day of work. Emphasis should be placed on maximizing enrollment for the 16 to 21 year old youth.
3. All youth must have their own permanent Social Security Card.
4. At least 70% of all participants must meet economically disadvantaged criteria and 30% of the youth must meet either economically disadvantaged or low income (see below for definitions).

The economically disadvantaged and low income criteria effective April 1, 1977 are outlined below:

Field Supervisors/Counselors will be paid only for hours worked. They shall be paid either an hourly rate or a daily rate.
